

## VISION FOR TOMORROW: UNIVERSITY PLAZA “AGING-IN-PLACE” CAMPUS

Accepting the challenge to create a national showcase “Aging-In-Place” Campus in a federal empowerment zone, the Hebrew Homes/Plaza Health Network has developed a unique concept for assisting senior citizens of lesser to medium economic means, creating a public/not-for-profit “Partnership for Healthy Living” with Miami-Dade County and the University of Miami Center on Aging.

Offering a quality lifestyle for seniors, University Plaza is the cornerstone of our geriatric “Aging-In-Place” Life-Care Community. Planning for the growth in our senior population, this campus will provide a lifestyle with dignity and the ability to age-in-place with quality healthcare in a modern, cozy setting.

### THE UNIVERSITY PLAZA “AGING-IN-PLACE” CAMPUS WILL FEATURE:

- **University Plaza** – a 148-bed Skilled Nursing & Rehabilitation Center with private and semi-private rooms, offering hospital – quality skilled nursing care and “state-of-the-art” rehabilitative services
- **Jackson Plaza** – a 120-bed Skilled Nursing & Rehabilitation Center with planned assisted living, offering a dining room/café, beauty salon and barbershop, adult daycare center, multi-purpose rooms, and a fully equipped gym
- **Claude Pepper Towers** – a Miami-Dade County HUD Independent Living Facility
- **Alzheimer’s Center** - that will include space for family caregivers’ training seminars
- **Rehabilitation Pavilion** - that will include physical, occupational and speech therapies as well as a therapy pool. Inpatient and outpatient services utilizing state-of-the-art equipment will be available.
- **Reception Center** – where families and other visitors will be greeted, given a tour, and participate in a family caregiver support group program

### THE FULL CONTINUUM OF SERVICES WILL INCLUDE:

- Adult Day Care
- Respite Care
- Home Care
- Educational Classes
- Social Events
- Beauty and Barbershop facilities
- Transportation to shopping, banking and physician appointments
- Hospice and Palliative Care

By integrating health care, social services, and housing programs to bridge the gap between needs and services, at-risk people will receive the right services, at the right time, in the right place, with dignity and a quality life style.
